

JUGGLING CLOWNS

Print several times each page based on the total number of cards desired. To reduce the size of the cards, print two pages on one.

It is recommended to print on card stock and laminating to prolong the life of the game.

Rules of the Game (others can be invented ...)

All cards are dealt to each player face down.

Players flip at the same time the first card of their package.

Whoever has the clown juggling the highest number of balls wins all the cards that have been flipped.

If two clowns have the same number of balls, there is a "battle" when the players flip a second or even a third card ...
